HUCKLE IS A WINNER

Mayor Gilbert Discharged Him
Last Evening.

THEIR IS NO COURT ON EARTH

That Would Hold a Man on That Evidence, Said the Magistrate and the Trial Was Over—The Defense Put Up a Strong Fight Doctor Andrews Giving Testimony That Was Straight to the Point—Mrs. Huckle Was Firm.

The charge of Annie Houser against William G. Huckle came to naught in police court last evening, and Mayor Gilbert discharged the defendant from custody.

When the report of the NEWS REVIEW stopped yesterday afternoon Doctor Andrews, Sr., was on the stand. The gentleman stated that he had been practicing here for 15 years and he had known Huckle for a month. "Last Monday he was in my office and he was a sick man. He was suffering from a bad limb, and I had been treating him since the middle of November. He was very lame, and I discovered gastric irritation and irritation of the stomach. Monday he was fairly sick. I saw him next on Thursday, and he was still quite sick. I would think that he had gradually grown worse since I had seen him. I next saw him on the 7th, but I don't know how long he was confined in bed. I don't know that I gave him strict directions to stay in the house on Monday. He could neither go backward nor forward down stairs very quickly.

"As far as I know he was able to be about these days," said the doctor in answer to Attorney Clark. "He was worse on Monday, but, judging from his condition, I don't think he was out. Ordinarily I would say that he was unable to go to Mrs. Houser's on Wednesday morning. No man of his condition could have gone there."

Here Doctor Andrews wanted to make a statement, but the opposing attorney objected, and was sustained. Henry Hunt said he had seen Huckle once or twice. "His overcoat was left at the First M. E. church for four or five days, and was left there on Wednesday night, Dec. 4. Miss Swan came after the coat last Saturday," continued the witness, this time to A. H. Clark. "This was all the testimony he gave, and he was not sure of anything."

"I have known Huckle three or four months," said B. F. Hodgson when placed on the stand. "He lives on Sugar street at the foot of Thompson hill. I saw him at his home on Tuesday evening, his wife and my wife being also present. He looked to me to be a very sick man, and was lying on a lounge which seemed to be made of chairs. We were there about an hour, and he seemed to have a burning fever and a raging headache. He said he was suffering from his leg at the time. He couldn't carry on any conversation, and tried several times to sit up, but couldn't do it."

"He had his pants on and it was between 4 and 5 o'clock when we went there," said the witness on cross examination. "and he has been lame most of the time since he came here. I never went with him in the evening to Houser's; it was always in the daytime. No; I had not heard of his being ill before this. We are not engaged in the same work. He is the agent of the Law and Order society. His papers show he is a detective. I don't know when he came to the city, neither do I know what constitutes a member of the society, but it is composed of ministers and other citizens."

"We saw him in his house last Tuesday," replied Mrs. Hodgson in answer to the question when placed on the stand, "and he was very sick. He wasn't able to talk to us, and only raised his head, not his body when we were there."

"I know he had a fever because he was red in the face," she said on cross examination. "He was at our house on Monday, and seemed to be suffering from his leg. I have been at Mrs. Houser's when he was there, and have heard him complain of his leg. When we asked him how he was he said his head hurt him. I am sure it was Monday night he was at our house."

Mrs. Huckle was the next witness called, and Clark at once objected to the first question, but was overruled, and Mrs. Huckle said: "Monday my husband was very sick, but he went out. Tuesday he seemed worse and went out, but complained of being very sick. He came home at 2 o'clock and said he had to give it up. He went to bed at 10 o'clock, and he was very feverish. He did not leave the house until Sunday night. I know positively that he was not out on Tuesday night or Wednesday morning for it was Friday before he was able to sit up. Doctor Andrews called on

him Thursday. I was treating him for a violent cold. His leg was very much worse.

"His general health is not strong, but he is not sick," she said to Clark, "and his leg was healing and getting better until he came here. He has suffered from the leg for a long time. On Monday night he was down town, but came home before 12, and he was out on Tuesday until two in the afternoon. He grew steadily worse until Thursday at noon, but was better in the afternoon. Captain Palmer called on Wednesday, and I think he sent the doctor. He is out sometimes at night, but I always know where he will be. He is a vigilance officer, and he doesn't always wear the same clothing, but at times disguises himself. He has so many caps I couldn't say whether he has one such as you describe, and he wears different coats on different occasions. It would be impossible for him to go out as far as I know, and I know positively he was not out of the house."

Then Attorney Wells asked a few more questions to which Mrs. Huckle replied: "My husband has two overcoats and the other is a smooth one. He left his coat at the First M. E. church for over a week, but just when I don't know, although it was returned on Saturday last. He thought he was taking the typhoid fever, but slept a little. I slept very little."

"I live with my sister at Forest and Walnut streets," said Miss Swan when sworn. "I was at Huckle's home at 10 minutes before seven, and he seemed to me to be very sick. He was lying on three chairs. I brought his overcoat from the First M. E. church on Saturday evening, having gotten it from Mr. Hunt." In cross examination she said she did not know when the coat was taken to church.

"I have known the defendant for a few weeks and passed his house on Tuesday night at 11 o'clock," said Captain Palmer. "I was in his house on Wednesday, my wife being with me and we remained there about 30 minutes. Mrs. Huckle said he was in bad condition, and I told him he was a foolish man, and would get the doctor. On Tuesday, shortly after 1 o'clock, he was at my house, and said he was tired and sick. My wife told him he had better go home and go to bed."

"We were at Huckle's house on Wednesday evening, but were not there long," said Mrs. Palmer when placed on the stand. "I did not see Mr. Huckle, he was in the bedroom. I saw him on Tuesday between one and two in the afternoon, and he appeared to be very sick. He said he was feeling badly, and thought he would go home and go to bed. I told him he looked sick and ought to call a doctor. Yes, I passed the house with Mr. Palmer on Tuesday night."

"Yes I am the defendant," remarked the detective as he took the stand, "and I know Ann Houser keeps a house of ill-fame. I was last at her house about three weeks ago, and I haven't been at the house or near there since that time. I was in my own house on Tuesday and Wednesday, and did not leave it until Sunday. My leg has been very bad, and I have not been able to walk without a cane, and was not able to sit up until Thursday night. I positively deny that I was near the Houser house on Wednesday morning."

The crowd bent forward a little farther when Attorney Wells showed that he was done, and nodded to Attorney Clark to whom Huckle said: "I am a detective and you know it. I have been in the business 18 years. I have been here only a few months, and have been hunting the evil out. I decline to answer whether I frequently dress differently, and I speak the truth always. I do not say what is not true if you do. I never made a statement to my wife that was not true. My wife always knows what I am doing. Mrs. Wilson says she has two revolvers. I sent the one I borrowed back to her."

Here the defense rested, and Constable Lyon was called for the prosecution. He said he was not personally acquainted with Huckle, but has seen him frequently. He knows Mrs. Wilson and was at her place on business last Thursday or Friday. He saw Huckle the first part of the week, but didn't see him on Wednesday.

The arguments were not long, but were to the point. Mr. Clark attempted to show that he had made a clear case against Huckle for the prosecution, and dwelt upon some unimportant facts of the testimony in such a lingering manner as to make the crowd believe that he really thought his case was weak, and looked relieved when he sat down. Mr. Wells went right at the case, and in a quiet but earnest manner pointed out where the prosecution was very weak and where his own side was strongest.

SOME PRETTY BIRDS

They Are at the Poultry Show
at Bradshaw Hall.

THREE STATES REPRESENTED

Columbiana County Has a Good Representation, and Will Have Its Share of Premiums—Pigeons in Flocks—Over Four Hundred Fowls There.

The show of the poultry association opened at Bradshaw hall this morning, and is perhaps the best display of fine birds ever seen in the county, and it certainly exceeds anything ever seen in this city.

The coops are arranged in rows and contain over 400 chickens, geese and turkeys, while 150 pigeons are there to show to those who are interested in them. The cackling, cooing and drumming makes the place cheerfully noisy, and those who attend the show need have no fear they will be lonesome at any time. One monster rooster makes it his business to crow loudly at stated intervals, and he is always followed by the satisfied cackling of half a dozen hens. It is a cheerful place, to say the least, and one which cannot fail to interest those who know a thing or two about fowls.

A reporter wandered through the hall this morning, and could not but be interested in what he saw. There were big chickens and little chickens, fat chickens and lean chickens, and chickens of high degree, all of whom seemed bent on giving him a cordial greeting. The best birds of three states were there represented, and they all seemed anxious to present their claims for attention without waiting for the committee that will award the prizes. At one end of the row stood a coop that attracted attention, for it held two of the finest buff Cochins ever seen on earth. They are big fellows, too, and strutted about the narrow confines of the coop with as much confidence as a pair of monarchs. They are from Lisbon, as are a pair of Cochins bantams nearby, a pair of little ones who seemed as demure and patient as their big friends were proud and arrogant. J. L. McPherson, of Cannon's mill, has next to them some light Brahma fowls, also very large. They are counted a good chicken and many of them are raised in this county. Lewis Bros., of Cameron, W. Va., have a most creditable display, among the most prominent features being a pair of bronze turkeys. They are monsters and either would provide meat for an ordinary family through a week. Close to them are 10 pairs of Toulouse geese, all fine looking fowls, and considered the best of their kind. They are of the finest breed, and some will undoubtedly wear red ribbons when they go home. They are flanked by a couple of white Leghorns owned by J. F. Sharp. They present a pretty appearance, and have their uses beyond ornamentation, although a more beautiful fowl cannot well be imagined. Mr. Hailes, of this city, and Mr. Owens, of Clarkston, have a splendid exhibit in silver gray Dorkings, also very pretty fowls, while their presentation of brown Leghorns immediately attracts attention. B. Grosshans, of East End, has on exhibition a few buff Leghorns that can "score higher," as the poultry men put it, than any other birds at the show. The Minorca chickens, of which breed there are several on exhibition, are said to be as good as any in the land. E. G. Brice, of Winona, has a pair of barred Plymouth Rocks that are not pretty, but the person who says they are not large knows nothing of chickens. They are high in the air, and seem to know it. J. A. McIntosh, of Cannon's Mill, has the largest exhibit and presents some very beautiful specimens. He has four varieties of Wynnadotte, and no one can deny that they present a splendid appearance. Another coop of pretty chickens is made up of white Plymouth Rocks owned by W. E. Marquis, of Cross Creek, Pa. W. M. Hall, of this city, has a nice exhibit of golden Polish chickens, and George Arnold, of East End, has a number of Indian games. They are long-legged and ungainly, with big spurs, but always attract attention. Bert Nelson, also of this city, has a bunch of nine games built on the same plan as the others, and all looking as though they were spoiling for a fight. Frank McGarvey, of McKee's Rocks, has some very pretty spangled Hamburgs on exhibition, and the number of homing pigeons is a wonder. Taken all in all, the poultry show is a very good one, and deserving of much attention by those who like birds.

An Argument.

An exciting argument occurred in the Diamond last night the principals

being a young woman and a man whom she accused of saying mean things of her. The man protested his innocence but the angry woman refused to view it in that light. After a few sharp thrusts for him to remember the argument she left the place, and the crowd laughed.

A FLURRY.

That Varied Case Causes Some Unpleasantness.

Some unpleasantness seems to have grown out of the fact that Doctor Ogden has taken such stringent measures in connection with the case of varioloid on Fifth street, but the general opinion is that the doctor did right. Had he not instituted a strict quarantine he would have been condemned by the few narrow-minded ones who now object because he is being paid for attending the case.

It is learned that the board of health wanted to employ another physician, but he told them that he would not take the case for less than double the daily average of his practice, and the board decided to retain Doctor Ogden. The position of city physician was resigned by Doctor Toot last evening, but he consented to attend to all cases except the one in question, and it was not accepted. The physicians in town generally indorse Doctor Ogden's policy, and declare that it would be worse than idleness to do less than he has done, and the great majority of citizens believe that it is much better to spend a few dollars in prevention than to sacrifice lives after the disease gets a foothold.

HE RAN

Because He Thought the Guard Was Following Him.

A young butcher of the city was so badly frightened last night that he ran as hard as his feet could step to get away from an imaginary danger. He was on his way home when he passed a man on Fifth street, and immediately the man turned and followed. Thinking the stranger was after him our young man fled with all the power he could command, nor did he rest until he reached home. He chanced to relate the circumstances and his escape to some friends the next day, and wondered why they laughed, but now knows he was running from the guard, who was pacing his beat at the quarantined house on Fifth street.

Death From Typhoid Fever.

Harry, the son of Mr. and Mrs. John Gray, died at his home on Second street, after an illness of typhoid fever. The remains will be interred in Riverview cemetery tomorrow at 2 o'clock.

Mrs. W. F. Scott, wife of the Allegheny man who conducts a notion store in this city, died in Allegheny this morning of consumption.

Social Happenings.

The Elks spent a delightful evening at their rooms on Fifth street last evening.

The Tuxedo trio splendidly entertained the Phoenix club and their lady friends last evening. The first part of the time was spent in listening to the beautiful music made by the strangers and the remainder in dancing. Lunch was served.

Trades Council.

Trades council will meet tonight to transact business of importance. Further discussion on the question of a labor ticket will probably come before the meeting.

A Regular Meeting.

The regular meeting of the McKinley club will be held this evening. Only the ordinary routine of work will come before the body to be acted upon.

PRICES SLIGHTLY CUT

That's What the Potters Were
Doing In Pittsburg.

MORE DISCOUNT ON DECORATED

Had to Be Done to Meet Competition From the Other Side—Trenton Men Were Anxious—They Were Leaders In the Plan, It Is Said.

The manufacturing potters who attended the association meeting have returned, and are as happy as they could well be in the circumstances. In reporting what they did a Pittsburg paper said:

"The White Granite and Semi-Porcelain Manufacturers' association met at the Monongahela House and changed the classification of some of the decorated ware, under which a large discount will be allowed, which is practically a reduction of the price. This action was taken to place decorated ware on a better competitive basis at the seaboard with foreign ware. No effort is being made to meet the competition of the foreign makers on plain ware. Some of the manufacturers find it cheaper to buy foreign plain ware and decorate it in this country. The session of the manufacturers was brief, and no reference was made to taking action to secure higher duties for the present. The manufacturers will be content if they can hold their trade without profit until a Republican executive is placed in the White House."

"It was proposed to establish a double discount system for seaboard jobbers, through which they would enable to meet the foreign prices under an agreement to give preference to American ware," says another Pittsburg report. "The manufacturers of decorated ware were willing to adopt a system by which their branch of the industry would give assistance to the white granite, semi-porcelain, cream colored and yellow ware manufacturers, but they preferred a re-classification instead of an added discount to accomplish the purpose."

It is understood today that the Trenton men were strongly in favor of the move just made, and the western manufacturers agreed to it because they thought it would hold the trade all around. The extent of the cut could not be learned, but is said to be enough to make the importers feel uncomfortable when they hear of it.

The officers were all re-elected, and Liverpool is represented as follows: First vice president, Colonel Taylor; secretary, H. A. Keiffer; treasurer, Homer Laughlin; executive committee, John W. Vodrey, J. N. Taylor, Homer Laughlin, H. A. Keiffer, F. W. Fowler. The president of the association is John Moses, of Tranton.

A NEW TRUST.

The Stoneware Men Have Formed a Compact.

A dispatch from Zanesville today says: "Representatives of 10 companies manufacturing stoneware in the vicinity of Zanesville met here today and formed a temporary organization. They represent the larger part of the capital invested in the manufacture of milk crocks, fruit jars, jugs, etc., and the object is to form a close organization which shall co-operate with similar ones in the Akron and Canton districts for the advance of prices. It is held that such a step is rendered necessary by the demoralized state of the trade, which has been cut up for the past three years."

THE SAME.

No Change Will be Made in Rates for the Freights.

The question of a change in railroad fare charged clergymen has been settled by the managing officers of railways in territory covered by the Central Traffic association agreeing to continue to allow a rate of one and one half cents per mile. For the coming year regularly accredited clergymen, who may be entitled to the same under the rules, can therefore procure reduced rate tickets over the Pennsylvania Lines west of Pittsburg, same as during 1895.

A Bad Fall.

William Zang, of Lincoln avenue, suffered a painful accident at the old end of the Knowles, Taylor & Knowles plant this morning. He was scuffling with a kiln hand when he fell on a broken saggar, cutting a ragged gash in his arm. The wound was dressed, and the young man sent home.

There were big chickens and little chickens, fat chickens and lean chickens, and chickens of high degree, all of whom seemed bent on giving him a cordial greeting. The best birds of three states were there represented, and they all seemed anxious to present their claims for attention without waiting for the committee that will award the prizes. At one end of the row stood a coop that attracted attention, for it held two of the finest buff Cochins ever seen on earth. They are big fellows, too, and strutted about the narrow confines of the coop with as much confidence as a pair of monarchs. They are from Lisbon, as are a pair of Cochins bantams nearby, a pair of little ones who seemed as demure and patient as their big friends were proud and arrogant. J. L. McPherson, of Cannon's mill, has next to them some light Brahms fowls, also very large. They are counted a good chicken and many of them are raised in this county. Lewis Bros., of Cameron, W. Va., have a most creditable display, among the most prominent features being a pair of bronze turkeys. They are monsters and either would provide meat for an ordinary family through a week. Close to them are 10 pairs of Toulouse geese, all fine looking fowls, and considered the best of their kind. They are of the finest breed, and some will undoubtedly wear red ribbons when they go home.

They are flanked by a couple of white Leghorns owned by J. F. Sharp. They present a pretty appearance, and have their uses beyond ornamentation, although a more beautiful fowl cannot well be imagined. Mr. Hailes, of this city, and Mr. Owens, of Clarkstown, have a splendid exhibit in silver gray Dorkings, also very pretty fowls, while their presentation of brown Leghorns immediately attracts attention. B. Grosshans, of East End, has on exhibition a few buff Leghorns that can "score higher," as the poultry men put it, than any other birds at the show. The Minorca chickens, of which breed there are several on exhibition, are said to be as good as any in the land. E. G. Brice, of Winona, has a pair of barred Plymouth Rocks that are not pretty, but the person who says they are not large knows nothing of chickens. They are high in the air, and seem to know it. J. A. McIntosh, of Cannon's Mill, has the largest exhibit and presents some very beautiful specimens. He has four varieties of Wyandottes, and no one can deny that they present a splendid appearance. Another coop of pretty chickens is made up of white Plymouth Rocks owned by W. E. Marquis, of Cross Creek, Pa. W. M. Hall, of this city, has a nice exhibit of golden Polish chickens, and George Arnold, of East End, has a number of Indian games. They are long-legged and ungainly, with big spurs, but always attract attention. Bert Nelson, also of this city, has a bunch of nine games built on the same plan as the others, and all looking as though they were spoiling for a fight. Frank McGarvey, of McKee's Rocks, has some very pretty spangled Hamburgs on exhibition, and the number of homing pigeons is a wonder. Taken all in all, the poultry show is a very good one, and deserving of much attention by those who like birds.

An Argument.

An exciting argument occurred in the Diamond last night the principals

being a young woman and a man whom she accused of saying mean things of her. The man protested his innocence but the angry woman refused to view it in that light. After a few sharp thrusts for him to remember the argument she left the place, and the crowd laughed.

A FLURRY.

That Variceloid Case Causes Some Unpleasantness.

Some unpleasantness seems to have grown out of the fact that Doctor Ogden has taken such stringent measures in connection with the case of variceloid on Fifth street, but the general opinion is that the doctor did right. Had he not instituted a strict quarantine he would have been condemned by the few narrow-minded ones who now object because he is being paid for attending the case.

It is learned that the board of health wanted to employ another physician, but he told them that he would not take the case for less than double the daily average of his practice, and the board decided to retain Doctor Ogden. The position of city physician was resigned by Doctor Toot last evening, but he consented to attend to all cases except the one in question, and it was not accepted. The physicians in town generally endorse Doctor Ogden's policy, and declare that it would be worse than idleness to do less than he has done, and the great majority of citizens believe that it is much better to spend a few dollars in prevention than to sacrifice lives after the disease gets a foothold.

HE RAN

Because He Thought the Guard Was Following Him.

A young butcher of the city was so badly frightened last night that he ran as hard as his feet could step to get away from an imaginary danger. He was on his way home when he passed a man on Fifth street, and immediately the man turned and followed. Thinking the stranger was after him our young man fled with all the power he could command, nor did he rest until he reached home. He chanced to relate the circumstances and his escape to some friends the next day, and wondered why they laughed, but now knows he was running from the guard, who was pacing his beat at the quarantined house on Fifth street.

Death From Typhoid Fever.

Harry, the son of Mr. and Mrs. John Gray, died at his home on Second street, after an illness of typhoid fever. The remains will be interred in Riverview cemetery tomorrow at 2 o'clock.

Mrs. W. F. Scott, wife of the Allegheny man who conducts a notion store in this city, died in Allegheny this morning of consumption.

Social Happenings.

The Elks spent a delightful evening at their rooms on Fifth street last evening.

The Tuxedo trio splendidly entertained the Phoenix club and their lady friends last evening. The first part of the time was spent in listening to the beautiful music made by the strangers and the remainder in dancing. Lunch was served.

Trades Council.

Trades council will meet tonight to transact business of importance. Further discussion on the question of a labor ticket will probably come before the meeting.

A Regular Meeting.

The regular meeting of the McKinley club will be held this evening. Only the ordinary routine of work will come before the body to be acted upon.

PRICES SLIGHTLY CUT

That's What the Potters Were
Doing In Pittsburgh.

MORE DISCOUNT ON DECORATED

Had to Be Done to Meet Competition From the Other Side—Trenton Men Were Anxious—They Were Leaders in the Plan, It Is Said.

The manufacturing potters who attended the association meeting have returned, and are as happy as they could well be in the circumstances. In reporting what they did a Pittsburgh paper said:

"The White Granite and Semi-Porcelain Manufacturers' association met at the Monongahela House and changed the classification of some of the decorated ware, under which a large discount will be allowed, which is practically a reduction of the price. This action was taken to place decorated ware on a better competitive basis at the seaboard with foreign ware. No effort is being made to meet the competition of the foreign makers on plain ware. Some of the manufacturers find it cheaper to buy foreign plain ware and decorate it in this country. The session of the manufacturers was brief, and no reference was made to taking action to secure higher duties for the present. The manufacturers will be content if they can hold their trade without profit until a Republican executive is placed in the White House."

"It was proposed to establish a double discount system for seaboard jobbers, through which they would enable to meet the foreign prices under an agreement to give preference to American ware," says another Pittsburgh report. "The manufacturers of decorated ware were willing to adopt a system by which their branch of the industry would give assistance to the white granite, semi-porcelain, cream colored and yellow ware manufacturers, but they preferred a re-classification instead of an added discount to accomplish the purpose."

It is understood today that the Trenton men were strongly in favor of the move just made, and the western manufacturers agreed to it because they thought it would hold the trade all around. The extent of the cut could not be learned, but is said to be enough to make the importers feel uncomfortable when they hear of it.

The officers were all re-elected, and Liverpool is represented as follows: First vice president, Colonel Taylor; secretary, H. A. Keiffer; treasurer, Homer Laughlin; executive committee, John W. Vodrey, J. N. Taylor, Homer Laughlin, H. A. Keiffer, F. W. Fowler. The president of the association is John Moses, of Tranton.

A NEW TRUST.

The Stoneware Men Have Formed a Compact.

A dispatch from Zanesville today says:

"Representatives of 10 companies manufacturing stoneware in the vicinity of Zanesville met here today and formed a temporary organization. They represent the larger part of the capital invested in the manufacture of milk crocks, fruit jars, jugs, etc., and the object is to form a close organization which shall co-operate with similar ones in the Akron and Canton districts for the advance of prices. It is held that such a step is rendered necessary by the demoralized state of the trade, which has been cut up for the past three years."

THE SAME.

No Change Will be Made in Rates for the Freights.

The question of a change in railroad fare charged clergymen has been settled by the managing officers of railways in territory covered by the Central Traffic association agreeing to continue to allow a rate of one and one half cents per mile. For the coming year regularly accredited clergymen, who may be entitled to the same under the rules, can therefore procure reduced rate tickets over the Pennsylvania Lines west of Pittsburgh, same as during 1895.

A Bad Fall.

William Zang, of Lincoln avenue, suffered a painful accident at the old end of the Knowles, Taylor & Knowles plant this morning. He was scuffling with a kiln hand when he fell on a broken saggar, cutting a ragged gash in his arm. The wound was dressed, and the young man sent home.

MR. REED'S POLICY.

The somewhat peculiar attitude which Mr. Reed has chosen in relation to the tariff can not but bring down upon him and those Republicans who follow him in congress the condemnation of those people who expected to see a Republican congress a working congress, and anticipated an effort for relief even though the veto of President Cleveland stood between their desire and success. It is probable that Mr. Cleveland, following his policy to never yield an inch to the demands of the people, will veto every tariff bill presented, but that is no reason why the Republicans should bow to his mandate, without an attempt at deliverance. The vast majority of Americans were promised relief when congress convened. The iron men, potters, tin manufacturers and scores of others, and the party leaders owe it as a duty that some attempt be made to fulfill the promise. Mr. Reed believes that any movement in this way would unsettle business conditions, but Mr. Reed is doubtless acquainted with the fact that business began to improve when the people had an opportunity to show that they were opposed to low tariff and wanted something a little better. It may be good politics to follow the line mapped out by Mr. Reed, but it is certainly not good business judgment nor does it fulfill the wishes of the people.

TRUTH TRIUMPHS.

"I do not believe that any court or jury in the land would convict under such evidence, and I therefore discharge from custody the defendant, William G. Huckle. The case is dismissed." Thus spoke Mayor Gilbert last night, in the case brought before him by the notorious Ann Houser, against William G. Huckle, the detective employed by the Law and Order and Social Purity league. City Solicitor Clark conducted the prosecution, and in summing up his side of the question, he asserted that, in case the mayor did not convict the defendant, he must find that Ann Houser and Miss Hiller were guilty of perjury, and that no conclusion could be arrived at, as they both swore positively, without the shadow of a doubt, that William G. Huckle was the individual who broke into Ann Houser's mansion on the morning of Dec. 4, between the hours of 3 and 4 o'clock, pistol in hand, with the silent, yet covert, threat to do deadly injury to Ann Houser, in case he was interfered with. Mayor Gilbert, as per Solicitor Clark, decided that perjury had been committed. Mayor Gilbert could have demanded, as per the law, that Ann Houser should have given bond for the payment of costs, in case the prosecution failed, and the great pity is that he did not. Such notorious characters as Ann Houser would consider matters very carefully in case they were compelled to give bond or spend ready cash in order to satisfy their malice and hate against everything pure and good. Such a female as Ann Houser, backed by kindred evil associates, without the shadow of decency or principle, can imperil any good citizen and cause him infinite trouble and humiliation. It is now known, under solemn affidavits made by unimpeachable witnesses, that Ann Houser has made infamous charges against good and prominent citizens, and apparently without the shadow of proof, save that of characters whose oath would not now be taken into consideration by an intelligent jury. It is now the bounden duty of the authorities to see to it that Ann Houser no longer disgraces the fair fame of East Liverpool. Abundant testimony can be secured against her. She has no visible means of honest and honorable living. Her record elsewhere has been an infamous one. She is a menace to law and order and decency. If the officials do not do their duty in the case, then good and true citizens, backed by money and influence, will take the matter in hand. Ann Houser must cease her evil practices or vacate this section. Mayor Gilbert has the thanks of all good citizens for his action in the present case. Let the good work go on. Turn on the light.

DUAL UNIONS FEARED.

Elderkin Says They Endanger the A. F. of L.

A REMEDIAL RESOLUTION OFFERED

The Boycott Against the U. S. Baking Company to Be Actively Enforced. Election of Officers Won't Occur Before Next Week—Committees Announced.

New York, Dec. 12.—So slowly has the work of the American Federation of Labor progressed that instead of adjournment being reached by Saturday noon at the latest, which was the original program, that it is not likely the election of officers will be reached before Monday, and possibly Tuesday, of next week. The main obstruction is the contested seats in the convention, a matter which is usually disposed of on the first day of the annual conventions.

The credentials committee has reported, the convention concurring, that W. E. Ward, claiming to represent a painters' union, a dual organization, be denied a seat. Subsequently the duality of organization within the ranks of the federation was brought up by Vice President T. J. Elderkin, who predicted that unless the conditions were corrected the federation would fall under the control of antagonistic elements. Instancing the case of the 119 lodges of the Brewery Employees' National union, a small majority of which are attached to the Knights of Labor, Mr. Elderkin said: "These K. of L. assemblies have a national trade assembly and meet in national convention and secretly legislate for the National Brewery Employees' union. As a result a great national union attached to the federation is controlled absolutely by an inner circle of the K. of L."

As a remedy for this condition a resolution was offered to the effect that hereafter a seat shall be refused to any representative whose organization has within its ranks any other organization comprising less than the total membership.

The following committees were announced: On eight-hour work day, S. H. Jacobson, New York; Owen Miller, Henry Weissman, Brooklyn; John C. Donnell, Chicago; Henry Barter, Detroit; George E. McNeill, Boston. Advisory committee Chicago labor council—Robert Ash, Massachusetts; A. Furness, San Francisco; Frank McCarthy, Boston; F. W. Lee and Joseph Widdonsfield.

It was resolved to extend an invitation to the Women's Christian Temperance union to send fraternal delegates to the convention. The president of the W. C. T. U. had been invited to attend, but had sent regrets, at the same time stating that delegates from the organization would be present at today's session of the convention.

The committee on resolutions reported favorably a resolution asking that all outside trades unions be invited to become affiliated with the American Federation of Labor. A resolution by Samuel Gompers against capital punishment was adopted.

A resolution was adopted reaffirming the declaration made in favor of the free and unlimited coinage of silver at the ratio of 16 to 1. A resolution by Delegate Andrew Furness of San Francisco protesting against the passage in congress of the compulsory arbitration bill was adopted.

The committee on labels and boycotts reported favorably upon the adoption of a uniform boot and shoe workers' union label. A resolution, having for its object the most active prosecution of the boycotts against the United States Baking company, was adopted. Delegate Elderkin of Chicago said that his idea of boycotting a man was to run him out of business entirely and not advertise him for a year and then when he gave in give him a union label.

A resolution that the secretary of the federation communicate with the Metropolitan and Prudential insurance companies for the purpose of securing a modification of the contract agent are obliged to observe, which, it was represented, were oppressive and unjust, was adopted.

COLT CLEARS HIS WIFE.

He Says His Case Against Van Allen Did Not Involve Wrongdoing.

PROVIDENCE, Dec. 12.—The last act of the famous Colt case closed when J. M. Ripley, counsel for Mrs. Elizabeth M. Colt, in divorce proceedings brought by her husband, ex-Army General Samuel P. Colt, formally discontinued the petition brought by his client in the appellate division of the supreme court. Following this Samuel Colwell, attorney for Colonel Colt, read a statement signed by the latter stating that as the reasons for the suit brought by him against J. J. Van Allen of Newport, for alleged alienation of Mrs. Colt's affections, had been misconstrued, this case was also discontinued.

In his statement, Colonel denies that any charges of unbecoming conduct were made or intended to be made against Mrs. Colt in the suit brought against Mr. Van Allen.

Great Britain After Them.

NEW ORLEANS, Dec. 12.—Great Britain is making an issue with the United States over the wounding of the purser, James H. Kane, of a British steamship during the levee riots here last spring. Governor Foster has received a communication from Secretary of State Olney asking for a report on the levee disturbance and what steps have been taken toward bringing the offenders to trial.

A Shipbuilding Strike Settled.

GLASGOW, Dec. 12.—The great shipbuilding strike has been settled. The masters have agreed to grant the Clyde men a shilling a week advance immediately and another shilling advance in February. The strike has also been settled in Belfast, where the men will get a shilling advance in February.

Will Increase One Price.

CHICAGO, Dec. 12.—At the meeting of green glass bottle makers it was decided to increase the price of all bottles shaped in the manner of those ordinarily used to hold champagne.

MRS. BROWN ONLY INDISCREET.

The Divorce Case Compromised and She Gets Big Alimony.

COLUMBUS, Dec. 12.—The Brown divorce case, with all the sensational features eliminated, has been tried before Judge Pugh. Mr. and Mrs. Brown effected a compromise, Mrs. Brown employing a new attorney, Mr. J. E. Sater. By the terms of the compromise Mrs. Brown is to be paid a certain alimony, not made public, but currently reported to be an annuity of \$1,000. Mr. Brown is to be allowed the custody of their boy.

The application is to be rested upon the charge of gross neglect of duty and all charges of infidelity eliminated from the petition. The depositions taken at Atlantic City, in so far as they relate only to indiscreet conduct on the part of Mrs. Brown, neglect of the child, etc., were placed in evidence.

Witnesses testified to the good character of Mr. Brown, and the plaintiff rested his case. Mr. Brown made no defense.

W. G. Brown is a wealthy wholesale wholesaler and druggist, and Mrs. Brown comes of a good family at Cambridge, Ohio.

FOURTEEN NEW VESSELS.

Contracts For New Lake Boats Given Out by a Cleveland Firm.

CLEVELAND, Dec. 12.—During the last week, the firm of Pickands, Mather & Co., has made contracts for the building of 14 steel freight vessels to cost \$3,500,000. Eight will be steamers and four will be tow barges. Twelve of the vessels are for John D. Rockefeller and two are for the Minnesota Steamship company. Each will carry at least 4,000 gross tons on 14 feet, 6 inches draft.

The vessels will be built three in Cleveland, three in Bay City, Mich., four in Chicago, two in Detroit, and two in West Superior, Wis. All are expected to be completed before Aug. 15 next and will go at once into the iron ore trade. Rockefeller and the Minnesota company own the great Mesabara range in the Lake Superior region and the railroad reaching it, and now they are prepared to control the lake transportation of their ore.

May Give Another Dividend.

CINCINNATI, Dec. 12.—Receiver David Armstrong of the Fidelity National bank said that a suit for \$200,000 against the Chemical National bank of New York, which will be argued and probably decided next February, and a suit for \$75,000 against Swift's rolling mill, which will come up later, will, if decided in his favor, enable him to pay the creditors of the Fidelity another 10 per cent dividend, making a total of 68 per cent.

Saloonkeeper Shoots at a Servant.

COLUMBUS, Dec. 12.—A. Wash Dennis, a saloonkeeper of this city, is under arrest for shooting to kill. Dennis had in his employ a domestic, Annie Behler, who came here from Newark, Dennis, who was drinking, became offended because he found the girl washing some of her own clothing during hours of work, and pulled his revolver and fired four or five shots at her. He says he only fired to scare her. If so, he succeeded, but she was not wounded.

Fighting Over a Receivership.

AKRON, O., Dec. 12.—Judge Voris has granted a temporary injunction restraining Daniel Babst from assuming the duties of receiver of the New York, Pennsylvania and Ohio railroad, he having been appointed by the court at Marion, O. The action was taken at the instance of John Todd of Cleveland, who had been previously appointed by another court. The hearing is set for Dec. 17.

New C. H. & D. Connections.

CINCINNATI, Dec. 12.—The Cincinnati, Hamilton and Dayton railway having by the passage of an ordinance acquired the right of way through Jefferson, Second, Third, Fourth, Charles and Libby streets at Middletown, it is announced that the Cincinnati and Dayton branch will be connected there with the main line with double tracks between Cincinnati and Middletown within a few miles of Dayton.

SHREVE, O., Dec. 12.—Misses Josie and Ollie De Miller, sisters, and Mrs. Kate Flagle, armed with rawhide whips, have unmercifully attacked William Crossman, a prominent citizen, on the street. The ladies allege that Crossman had circulated damaging reports about their character.

Receiver W. J. Davis sold the property of the Delaware Ice and Brewing company for \$10,708, against which the purchase of the Fire Insurance Company of Philadelphia, held a mortgage. The stockholders in the above company are located in Marietta, Columbia, Ironton and Zanesville.

A movement is on foot at Winchester to take up a collection to raise sufficient money to erect a monument in memory of ex-Congressman John P. Ludlow, who recently died in Toledo. Ludlow was appointed sergeant-at-arms of the house of representatives during President Cleveland's first term, and was appointed from Winchester.

L. T. Parish of Delaware, owner of a livery stable, has been arrested by a detective with a warrant from Orrick, Mo., charging him with receiving deposits in the Farmers' bank of Orrick after it had entered into a state of insolvency. Parish was cashier of the bank at the time.

Caution about the Use and Selection of Spectacles

"Persons having normal vision will be able to read this print as a diagram of it is called from the eye with ease and comfort. Also will be able to read it with each eye separately. If unable to do so your eyes are defective and should have immediate attention. When the eyes become tired from reading or sewing, or if the letters look blurred and run together, it is a sure indication that glasses are needed. The same is in the case of those who are of unequal vision and have imperfectly formed eyeballs. Continued use of these eyes will result in positive injury from the constant strain upon the muscles of accommodation to supply the defects in the eyes."

ANGRY AT THE GHOULS

Topeka People Threaten Vengeance on Bodysnatchers.

THE STATE MILITIA CALLED OUT.

At the Kansas Medical College—The students of Prominent Women Found the Corpses.

Topeka, Dec. 12.—The recent revolting grave robberies in this city have caused the people to the highest pitch of indignation. Consequently a mob began forming in the streets, the moving purpose being to burn the Kansas Medical college, in which, during the past three days, the bodies of two well-known women have been found. Both had been stolen from their graves soon after burial.

The governor has called out the state militia here and the company from Lawrence. The faculty of the college called upon the police for protection. The students were all sent home and a large squad of policemen was detailed to guard the college building. A detail of militiamen from Battery B of this city is stationed at their arsenal to prevent a capture of the arms stored there. Upon the request of the sheriff the governor has ordered the infantry company at Lawrence to be ready to respond to a call at any moment. The men are now assembled at the station at Lawrence.

While it is believed the precautions that have been taken will prevent any further demonstration the men in the streets are loud in their threats. All the A. O. U. W. lodges have met and denounced the outrage, and demanded a full investigation to discover the guilty.

Tuesday A. N. Drake of North Topeka, whose wife died last week, discovered her grave had been robbed. The

corpse was found at the Kansas Medical college. On Monday I. O. Van Fleet, who had buried his wife but a few hours before, found her mutilated and disfigured remains on the dissecting table at the college. This discovery resulted in the arrest of S. A. Johnson, a student, who acts as janitor of the institution. Later P. H. Lillis identified the third body at the college as that of his mother, who died recently. These revelations were the cause of the demonstration.

MISSIONARIES IN DANGER.

The Red Cross Offered \$25,000 to Distribute in Armenia—New Horrors.

NEW YORK, Dec. 12.—A cable dispatch received by The Christian Herald says: "News received from Van states that 50,000 refugees are crowding the city from 200 villages, which have been destroyed in the province of Van. The Turks are greatly hampering the relief work conducted by Dr. Grace Kimball and her missionary associates. Information comes from Bitlis that the missionaries lives there are in danger and that they are awaiting a chance to escape to a place of safety. The Christian Herald has telegraphed to Clara Barton, president of the American Red Cross, at Washington, offering to contribute \$25,000 for relief, if the Red Cross assumed the responsibility of the work in that country. A dispatch from Urumiah, Persia, says: "It is now certain that the Hamidieh cavalry have destroyed 200 villages in the province of Van." A Vienna dispatch says: "News from Trebizonde tells of fresh atrocities. The bishop and five ecclesiastics were burned alive while seeking refuge in a building."

BAYARD WON'T RESIGN.

He Says That Much and No More to the English Newspaper Reporters.

LONDON, Dec. 12.—The United States embassy has been besieged by newspaper reporters anxious to obtain the views of Ambassador Bayard upon the demand for his impeachment, which was made in the house of representatives at Washington by Congressman William E. Barrett of Massachusetts on the ground that he had insulted, in the country to which he is accredited, the people he represents in speeches delivered at Boston, England, and at Edinburgh, Scotland, on Aug. 2 and Nov. 7 respectively.

But all attempts to induce Mr. Bayard or his staff to discuss the matter failed, while the British officials also declined to make any statements on the subject. The ambassador merely says he will not resign. Some of the London newspapers uphold the attitude of the Republicans, some ridicule and others condemn them.

Costly to the Lumbermen.

WILLIAMSPORT, Pa., Dec. 12.—The sudden freeze-out has been costly to the lumbermen of this section. Thirty-six million feet of logs are icebound in the river and Pine creek, and in order to insure their safety every one of them will have to be cut out and banded for the winter. This will involve an expense of \$10,000.

LOCAL BREVITIES.

Miss Emma Bentz, who fell and broke her leg in Huston addition two weeks ago, is recovering.

The water works trustees held a meeting this afternoon, but did no other business than routine work.

The river is falling, and there is some doubt as to when the next Cincinnati packet will go up the river.

A horse ran off on Walnut street last night and led its owner a merry chase. Finally the animal was captured and taken back to the stable.

It is said that another effort will be made to pass the board of improvement ordinance after the spring election.

The doctors have been having less time to themselves these past few days, their attention being taken by children who demand vaccination.

A Pittsburg man claims to have a corner on hay, and says he is in position to make the surrounding towns pay a still higher price for horse feed.

The Southern Columbiana County Bar association will meet in the office of J. J. Purinton on Saturday evening. The principal business will be the election of officers.

A story comes from Yellow Creek that a strange wild animal has appeared in that section, and has frightened a number of people by its unearthly screams.

The revival services that have been conducted by Reverend Sears, of the Second M. E. church, of the East End for the past two weeks were brought to a close last night.

The Blackstone club held a short session in the office of G. Y. Travis last evening, but transacted no other business than to decide on Friday night as the regular time of meeting.

Joshua Curfman, engineer at the fire station, has obtained leave of absence for a week, and left this morning for a visit with friends in Pittsburg. His place is being filled by a competent man.

Local politicians bow to the inevitable now that the Republican convention has gone to St. Louis, but some were disappointed, for they wanted to attend it and see Governor McKinley nominated, but now their hopes for being present are gone.

East End residents fear that some of the pavements, recently laid will give way after a few heavy rains have fallen, because the streets are not filled to the level of the pavement. Consequently there is no retaining support for the soft earth on which the pavements were laid.

Officers Earl and Jennings are becoming quite expert when it comes to shooting with a revolver and frequently may be seen practicing in a Second street shooting gallery. It is thought that they are preparing for any emergency that may arise in the shape of a few more three legged dogs.

Somebody has been playing horse again with a local paper. Last night it stated that 'Squire Rose on Monday night united in marriage Mary Bashor and Edward Alev, but the interested parties disclaim all knowledge of any such event having taken place.

W. D. Sachtleben, the wheelman who went to Turkey for the purpose of having the murderers of Frank Lenz punished, intended to come home next month, but finds that he cannot leave the country. He is at Erzeroum and dares not leave the American consulate. The roads throughout the country are infested with brigands, and it is worth a Christian's life to travel.

Mr. J. T. Rogers, a prosperous farmer residing near Hookstown, and Mrs. Ellen Gilson, of this city, were married last evening at the residence of Rev. J. C. Taggart. They were then driven to Mrs. Gilson's home on the Calcutta road where the neighbors had gathered in their absence, and the remainder of the evening was spent in merrymaking. The happy couple will soon move to the farm near Hookstown, where they will reside.

The snow had not been long on the ground until a few young men had taken their stand at the corners of prominent streets, and were bombarding pedestrians. The practice was continued today with annoyance to those who endeavored to escape it. Last winter it became a nuisance, and the police should keep an eye on those who indulge in the practice. No one can object to harmless sport, but a well rounded snow ball tucked neatly into a tingling ear is anything but pleasant.

The snow came down last night in the first real fall of the season, and when morning came there was an inch of the beautiful covering the dusty streets. A few sleds were out at an early hour, but the cutters went through the snow and scraped along the bricks so that sleighing was not general. The small boy was in his glory, and as soon as he could get out he was hunting some slippery street where the coasting was good. The snow was general throughout this part of the country.

ANGRY AT THE GHOULS

Topeka People Threaten Vengeance on Bodysnatchers.

THE STATE MILITIA CALLED OUT.

TOPEKA, Dec. 12.—The recent revolting ghoulies in this city have aroused the people to the highest pitch of indignation. Consequently a mob began forming in the streets, the avowed purpose being to burn the Kansas Medical college, in which, during the past three days, the bodies of two well-known women have been found. Both had been stolen from their graves soon after burial.

The governor has called out the state militia here and the company from Lawrence.

The faculty of the college called upon the police for protection. The students were all sent home and a large squad of policemen was detailed to guard the college building. A detail of militiamen from Battery B of this city stationed at their arsenal to prevent a capture of the arms stored there.

Upon the request of the sheriff the governor has ordered the infantry company at Lawrence to be ready to respond to a call at any moment. The men are now assembled at the station at Lawrence.

While it is believed the precautions that have been taken will prevent any more ghoulies, the men in the streets are loud in their threats. All the A. O. U. W. lodges have met and denounced the outrage, and demanded a full investigation to discover the ghoulies.

Tuesday A. N. Drake of North Topeka, whose wife died last week, discovered her grave had been robbed. The

corpse was found at the Kansas Medical college. On Monday I. O. Van Fleet, who had buried his wife but a few hours before, found her mutilated and disfigured remains on the dissecting table at the college. This discovery resulted in the arrest of S. A. Johnson, a student, who acts as janitor of the institution. Later P. H. Lillis identified the third body at the college as that of his mother, who died recently. These revelations were the cause of the demonstration.

MISSIONARIES IN DANGER.

The Red Cross Offered \$25,000 to Distribute in Armenia—New Horrors.

NEW YORK, Dec. 12.—A cable dispatch received by The Christian Herald says: "News received from Van states that 50,000 refugees are crowding the city from 200 villages, which have been destroyed in the province of Van. The Turks are greatly hampering the relief work conducted by Dr. Grace Kimball and her missionary associates.

"Information comes from Bitlis that the missionaries lives there are in danger and that they are awaiting a chance to escape to a place of safety."

The Christian Herald has telegraphed to Clara Barton, president of the American Red Cross, at Washington, offering to contribute \$25,000 for relief, if the Red Cross assumed the responsibility of the work in that country.

A dispatch from Erzurum, Persia, says: "It is now certain that the Hamidieh cavalry have destroyed 200 villages in the province of Van."

A Vienna dispatch says: "News from Trebizonde tells of fresh atrocities. The bishop and five ecclesiastics were burned alive while seeking refuge in a building."

BAYARD WON'T RESIGN.

He Says That Much and No More to the English Newspaper Reporters.

LONDON, Dec. 12.—The United States embassy has been besieged by newspaper reporters anxious to obtain the views of Ambassador Bayard upon the demand for his impeachment, which was made in the house of representatives at Washington by Congressman William E. Barrett of Massachusetts on the ground that he had insulted, in the country to which he is accredited, the people he represents in speeches delivered at Boston, England, and at Edinburgh, Scotland, on Aug. 2 and Nov. 7 respectively.

But all attempts to induce Mr. Bayard or his staff to discuss the matter failed, while the British officials also declined to make any statements on the subject. The ambassador merely says he will not resign.

Some of the London newspapers uphold the attitude of the Republicans, some ridicule and others condemn them.

Costly to the Lumbermen.

WILLIAMSPORT, Pa., Dec. 12.—The sudden freeze-out has been costly to the lumbermen of this section. Thirty-six million feet of logs are icebound in the river and Pine creek, and in order to insure their safety every one of them will have to be cut out and barked for the winter. This will involve an expense of \$40,000.

LOCAL BREVITIES.

Miss Emma Bentz, who fell and broke her leg in Huston addition two weeks ago, is recovering.

The water works trustees held a meeting this afternoon, but did no other business than routine work.

The river is falling, and there is some doubt as to when the Cincinnati packet will go up the river.

A horse ran off on Walnut street last night and led its owner a merry chase. Finally the animal was captured and taken back to the stable.

It is said that another effort will be made to pass the board of improvement ordinance after the spring election.

The doctors have been having less time to themselves these past few days, their attention being taken by children who demand vaccination.

A Pittsburg man claims to have a corner on hay, and says he is in position to make the surrounding towns pay a still higher price for horse feed.

The Southern Columbiana County Bar association will meet in the office of J. J. Purinton on Saturday evening. The principal business will be the election of officers.

A story comes from Yellow Creek that a strange wild animal has appeared in that section, and has frightened a number of people by its unearthly screams.

The revival services that have been conducted by Reverend Sears, of the Second M. E. church, of the East End for the past two weeks were brought to a close last night.

The Blackstone club held a short session in the office of G. Y. Travis last evening, but transacted no other business than to decide on Friday night as the regular time of meeting.

Joshua Curfman, engineer at the fire station, has obtained leave of absence for a week, and left this morning for a visit with friends in Pittsburg. His place is being filled by a competent man.

Local politicians bow to the inevitable now that the Republican convention has gone to St. Louis, but some were disappointed, for they wanted to attend it and see Governor McKinley nominated, but now their hopes for being present are gone.

East End residents fear that some of the pavements, recently laid will give way after a few heavy rains have fallen, because the streets are not filled to the level of the pavement. Consequently there is no retaining support for the soft earth on which the pavements were laid.

Officers Earl and Jennings are becoming quite expert when it comes to shooting with a revolver and frequently may be seen practicing in a Second street shooting gallery. It is thought that they are preparing for any emergency that may arise in the shape of a few more three legged dogs.

Somebody has been playing horse again with a local paper. Last night it stated that Squire Rose on Monday night united in marriage Mary Bashor and Edward Alev, but the interested parties disclaim all knowledge of any such event having taken place.

W. D. Sachtleben, the wheelman who went to Turkey for the purpose of having the murderers of Frank Lenz punished, intended to come home next month, but finds that he cannot leave the country. He is at Erzeroum and dares not leave the American consulate. The roads throughout the country are infested with brigands, and it is worth a Christian's life to travel.

Mr. J. T. Rogers, a prosperous farmer residing near Hookstown, and Mrs. Ellen Gilson, of this city, were married last evening at the residence of Rev. J. C. Taggart. They were then driven to Mrs. Gilson's home on the Calcutta road where the neighbors had gathered in their absence, and the remainder of the evening was spent in merrymaking. The happy couple will soon move to the farm near Hookstown, where they will reside.

The snow had not been long on the ground until a few young men had taken their stand at the corners of prominent streets, and were bombarding pedestrians. The practice was continued today with annoyance to those who endeavored to escape it. Last winter it became a nuisance, and the police should keep an eye on those who indulge in the practice. No one can object to harmless sport, but a well rounded snow ball tucked neatly into a tingling ear is anything but pleasant.

The snow came down last night in the first real fall of the season, and when morning came there was an inch of the beautiful covering the dusty streets. A few sleds were out at an early hour, but the cutters went through the snow and scraped along the bricks so that sleighing was not general. The small boy was in his glory, and as soon as he could get out he was hunting some slippery street where the coasting was good. The snow was general throughout this part of the country.

SNOW ON THE TRACK

Caused Trouble For Street
Railway Motormen.

A CAR WAS OFF AT JETHRO

Passengers Were Transferred and the
Usual Delay Followed—A Blockade In
Wellsville—New Cars Promised For Next
Monday—Motormen Grow Weary.

Perhaps the only people who
failed to smile and feel glad when
the snow flakes began falling last
evening were employees of the street
railway, and they greeted the beautiful
with anything but joy.

Motormen compelled to face the
storm without the protection of vestibules, had a hard time of it, for the
wind blew and the air was cold and
raw. Many wondered when the new
cars were coming, and then shivered
as they looked down the line. It was
learned today from Superintendent
Andrews that the cars or a number of
them, at least, were expected here on
Monday, arrangements with that end
in view having been made. This
morning the hard luck began. Three
cars got as far as the square in Wells-
ville, but were blocked there
because of the snow. A car left the
track at Jethro, and turned across the
rails, compelling passengers to transfer
in the snow. There were no
passengers hurt when the car jumped
the rails, but all the passengers got a
shaking up. At an early hour men
were out with brooms clearing the
track, and it was not long until cars
were running regularly. Those who
profess to know say that little is
feared from the new cars jumping the
track, since these accidents are caused
always by old cars.

The great majority of men and
women, of even very much more than
ordinary intelligence, pay no attention
whatsoever to the well established
rules governing the preservation of
health. Simple symptoms of indigestion
or slight derangements of the
stomach or system are treated by them
as trivial happenings, having no weight
or bearing upon their general health.
In this seeming neglect or too much
over confidence in their own robust-
ness lies the greatest mistake of their
lives, as it is invariably from these lit-
tle ailments, chronic diseases
spring. To guard fully against such
evils, use Libby's Phosphate Beef, Iron
and Wine: the only true tonic to the
stomach system, system and nerves,
perfect strength and tissue producer,
and new rich blood matter. Go or
send for it to Alvin H. Bulger, drug-
gist, Sixth and West Market.

tic Tea company in tomorrow's paper.

At the Opera House.

Daniel A. Kelly and his excellent
company will present "Outcasts of a
Great City" at the Grand this even-
ing.

The attraction tomorrow evening
will be "Lost Paradise," presented by
George Morris and an excellent com-
pany. The play has had a wonderful
run, Mr. Morris alone having appeared
in it over 1,000 times. The advance
sale of seats is large, and promises a
large crowd for the Grand tomorrow
night.

Anyone who has children will re-
joice with L. B. Mulford, of Plainfield,
N. J. His little boy, five years of age,
was sick with croup. For two days
and nights he tried various remedies
recommended by friends and neigh-
bors. He says, "I thought sure I would
lose him. I had seen Chamberlain's
Cough Remedy advertised and thought
I would try it as a last hope and am
happy to say that after two doses he
slept until morning. I gave it to him
next day and a cure was effected. I
keep this remedy in the house now
and as soon as any of my children
show signs of croup I give it to them
and that is the last of it." Twenty-
five and 50 cent bottles for sale by A.
H. Bulger, druggist.

HUCKLE IS A WINNER.

CONTINUED FROM FIRST PAGE.

He dealt exclusively with the legal
questions involved, and sat down
with the air of a man who has fought
the battle and won out. Mayor Gil-
bert listened attentively to all that
had been said, and when he arose to
give his decision, he looked the earn-
estness that he evidently felt. After
briefly viewing the case, he discharged
the prisoner with the remark that the
evidence did not show the detective
was guilty, and no court on earth
would hold him on what had been
given. The crowd cheered the
announcement, and the trial was at
an end a few minutes after 6 o'clock.

GOLDEN MEDICAL DISCOVERY

Many years ago Dr. R. V. Pierce, chief
consulting physician to the Invalids' Hotel
and Surgical Institute, Buffalo, N. Y., com-
pounded this medicine of vegetable ingredi-
ents which had an especial effect upon the
stomach and liver, rousing the organs to
healthful activity as well as purifying and
enriching the blood. By such means the
stomach and the nerves are supplied with
pure blood; they will not do duty without it.
Do not put your nerves to sleep with so-
called celery mixtures, it is better to go to
the seat of the difficulty and feed the nerve
cells on the food they require. Dyspepsia,
Indigestion, Biliousness and Nervous Af-
fections, such as sleeplessness and weak,
nervous feelings are completely cured by
the "Discovery." It puts on healthy flesh,
brings refreshing sleep and invigorates the
whole system.

Mrs. K. HENKE, of No. 896 North Halsted St.,
Chicago, Ill., writes: "I regard my improve-
ment as simply wonderful. Since taking Dr. Pierce's
Golden Medical Discovery in connection with his
'Pleasant Pellets' I have gained in every respect,
particularly in flesh and strength. My liver
was dreadfully deranged and I suffered greatly from
dyspepsia. No physician could give relief.
Now, after two months I am entirely
relieved of my disease. My appetite
is excellent; food well digested; bowels regular and sleep
much improved."

MRS. HENKE.

Governor Bradley's Cowardly Enemies

The inmates fell on the floor escaping
injury, except by broken glass. It was
at Eminence that Bradley refused to
continue further in the joint debate
during the campaign.

SNOW ON THE TRACK

Caused Trouble For Street
Railway Motormen.

A CAR WAS OFF AT JETHRO

Passengers Were Transferred and the
Usual Delay Followed—A Blockade In
Wellsville—New Cars Promised For Next
Monday—Motormen Grow Weary.

Perhaps the only people who failed to smile and feel glad when the snow flakes began falling last evening were employees of the street railway, and they greeted the beautiful with anything but joy.

Motormen compelled to face the storm without the protection of vestibules, had a hard time of it, for the wind blew and the air was cold and raw. Many wondered when the new cars were coming, and then shivered as they looked down the line. It was learned today from Superintendent Andrews that the cars or a number of them, at least, were expected here on Monday, arrangements with that end in view having been made. This morning the hard luck began. Three cars got as far as the square in Wellsville, but were blocked there because of the snow. A car left the track at Jethro, and turned across the rails, compelling passengers to transfer in the snow. There were no passengers hurt when the car jumped the rails, but all the passengers got a shaking up. At an early hour men were out with brooms clearing the track, and it was not long until cars were running regularly. Those who profess to know say that little is feared from the new cars jumping the track, since these accidents are caused always by old cars.

The great majority of men and women, of even very much more than ordinary intelligence, pay no attention whatsoever to the well established rules governing the preservation of health. Simple symptoms of indigestion or slight disarrangements of the stomach or system are treated by them as trivial happenings, having no weight or bearing upon their general health. In this seeming neglect or too much over confidence in their own robustness lies the greatest mistake of their lives, as it is invariably from these little ailments giant chronic diseases spring. To guard fully against such evils, use Libby's Phosphatic Beef, Iron and Wine: the only true tonic to the stomach system, system and nerves, perfect strength and tissue producer, and new rich blood matter. Go or send for it to Alvin H. Bulger, druggist, Sixth and West Market.

At the Opera House.

Anyone who has children will rejoice with L. B. Mulford, of Plainfield, N. J. His little boy, five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says, "I thought sure I would lose him. I had seen Chamberlain's Cough remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

HUCKLE IS A WINNER.

CONTINUED FROM FIRST PAGE.

He dealt exclusively with the legal questions involved, and sat down with the air of a man who has fought the battle and won out. Mayor Gilbert listened attentively to all that had been said, and when he arose to give his decision, he looked the earnestness that he evidently felt. After briefly viewing the case, he discharged the prisoner with the remark that the evidence did not show the detective was guilty, and no court on earth would hold him on what had been given. The crowd cheered the announcement, and the trial was at an end a few minutes after 6 o'clock.

GOLDEN MEDICAL DISCOVERY

Many years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., compounded this medicine of vegetable ingredients which had an especial effect upon the stomach and liver, rousing the organs to healthful activity as well as purifying and enriching the blood. By such means the stomach and the nerves are supplied with pure blood; they will not do duty without it any more than a locomotive can run without coal. You can not get a lasting cure of dyspepsia, or indigestion, by taking artificially digested foods or pepsin—the stomach must do its own work in its own way. Do not put your nerves to sleep with so-called celery mixtures, it is better to go to the seat of the difficulty and feed the nerve cells on the food they require. Dyspepsia, indigestion, Biliousness and Nervous Affections, such as sleeplessness and weak, nervous feelings are completely cured by the "Discovery." It puts on healthy flesh, brings refreshing sleep and invigorates the whole system.

Mrs. K. HENKE, of No. 866 North Halsted St., Chicago, Ill., writes: "I regard my improvement as simply

taking Dr. Pierce's Golden Medical Discovery in connection with his 'Pleasant Pellets.' I have gained in every respect, particularly in flesh and strength. My liver was dreadfully enlarged. I suffered greatly from dyspepsia. No physician could give relief. Now, after two months I am entirely relieved of my disease. My appetite is excellent; food well digested; bowels regular and sleep much improved."

MRS. HENKE.

It was at Eminence that Bradley refused to continue further in the joint debate during the campaign.
